

protect your children from infections and allergies

Do you know...

that the immunity of children born in regions with increased presence of dust particles (such as locations with heavy manufacturing and mining) is weakened and they suffer from respiratory infections 3 times more frequently?

ReSpimask[®]
NANO FIBER

LIFE'S WORTH IT

- Facemasks with RESPILON[®] nanofiber membrane stop dangerous viruses, bacteria, mites, molds, smog, pollen and dust particles
- RESPILON[®] membrane works on a purely mechanical basis; the mask is not impregnated with any chemicals or silver
- Hypoallergenic adhesive strips and the mask's unique shape ensure maximum adhesion while the mask remains perfectly air permeable
- Reliable protection from air pollution, pollen and airborne infections
- Ideal for children: easy to put on, comfortable to wear
